About us

KLE, stemming from the german name "Sauerklee" refers to a plant that has been used throughout most civilisations of the world for millennia.

We offer a plant based menu in a welcoming and vibrant dining room using local produce as our canvas. Inspired by the seasons, the main characters of the surprise menu change to the rhythm of nature.

Looking at the world as a source of inspiration, we share our love for food from our little neighbourhood restaurant.

About us

DAR has a sweet double meaning. In Moroccan it means "Home", and in Spanish it means "to give" which is the most important act we believe in besides love.

Spanish and Moroccan are the two pillars of our cuisine but we take inspiration from any tasty corner of the world.

The menu at DAR is created to share, with the idea that no matter our differences, we all break bread together.

Everything from the food to the drinks is plant based and we are proud to say that the seasons dictate the menu changes for us.

Whether you're envisioning an elegant wedding, a sophisticated corporate event, or a casual gathering, we can bring your vision to life.

THE WINE

There's a bottle for everyone.

Our list spans from well-known classics to small novel producers. It changes often – we never list the same wine twice after the bottles we purchase are sold.
